

**2017-2018  
MATH CHALLENGE @ WESTERN**

This program is for students who enjoy mathematics, wish to extend their mathematical repertoire beyond the school curriculum and prepare for mathematics contests. One registration fee of \$40 allows them to attend as many session levels in which they wish to participate. To encourage early registration, the fee will be \$30 for those who register on or before April 30, 2017. This money will be used to fund students competing in Mathematics Team Contests and pay other program expenses.
